WHO ATTENDS

All Professionals

No prior learning listed

About this Course

Over two days the bootcamp works through the fundamentals of professional cleaning: planning and sequencing a cleaning task, choosing the correct method and knowing what each technique achieves, understanding how chemicals act on dirt and surfaces, reading the pH scale and diluting, storing and handling chemicals against their Material Safety Data Sheets, and running the full restroom cleaning and sanitation routine through to a closing inspection.

Who Should Attend

The course is open to **all professionals**:

- ▲ **Cleaning and hygiene staff** needing a grounding in method, chemical safety and sanitation.
- ▲ **Supervisors and team leaders** accountable for cleaning standards and quality control.
- ▲ **Facility and office managers** responsible for chemical storage and MSDS compliance.

By the end of the course, a delegate will be able to:

Plan and prepare 01

Organise cleaning tasks effectively so that work runs in the correct sequence.

Apply the right method 02

Use correct cleaning methods and explain the specific benefits of professional technique.

Close out the task 03

Carry out standard end-of-task duties so that quality is controlled before leaving an area.

Read the pH scale 04

Understand how chemicals act on dirt and surfaces, and apply neutral, alkaline and acidic chemicals correctly.

Dilute, store, comply 05

Mix chemicals safely and cost-effectively, meet chemical storage requirements and work from MSDS.

Sanitise restrooms 06

Follow step-by-step toilet, above-floor and basic floor procedures and close with a final inspection.

COURSE PATHWAY ► THREE MODULES OVER TWO DAYS, THEN A CERTIFICATE OF ATTENDANCE

1 MODULE

Basic Principles

3 Topics

Planning, method and end-of-task duties.

2 MODULE

Chemical Safety

5 Topics

pH, dilution, storage and MSDS compliance.

3 MODULE

Restroom Sanitation

4 Topics

Deep sanitation and closing inspection.

★ FINAL

Certificate

Attendance

Issued on completion of the two days.

Three modules over two days

The bootcamp is delivered as three modules, worked through in order: the principles that govern every clean, the chemicals that do the work, and the restroom as the area where both are tested hardest.

3
MODULES

12 topics · 2 days

MODULE 1

Basic Principles of Cleaning

3 TOPICS

- ▶ **Planning and Preparation**
Techniques for organising cleaning tasks effectively.
- ▶ **Methodology**
Understanding correct cleaning methods and the specific benefits of professional techniques.
- ▶ **Task Finalisation**
Standard procedures for "End of Task" duties to ensure quality control.

MODULE 2

Chemical Safety and Management

5 TOPICS

- ▶ **Cleaning Action**
Understanding how chemicals interact with dirt and surfaces.
- ▶ **pH Scale Literacy**
Detailed explanation of pH levels and the correct application of neutral, alkaline and acidic chemicals.
- ▶ **Dilution Protocols**
Best practices for mixing chemicals to ensure safety and cost-effectiveness.
- ▶ **Storage and Handling**
Safety requirements for chemical storage.
- ▶ **Compliance**
Comprehensive guide to using Material Safety Data Sheets (MSDS).

MODULE 3

Restroom Cleaning & Sanitation

4 TOPICS

- ▶ **Importance of Hygiene**
Understanding the impact of restroom cleanliness on health and facility reputation.
- ▶ **Toilet Cleaning Processes**
Step-by-step procedures for deep sanitation.
- ▶ **Surface Maintenance**
Techniques for above-floor cleaning and basic floor cleaning.
- ▶ **Closing Procedures**
Final inspection and end-of-task duties specific to restroom environments.

Certification & Benefits

Each delegate receives a certificate of attendance on completion of the two days. As value added training, the bootcamp contributes to:

- ✓ Employee wellness
- ✓ Mandatory grant (MG) spend
- ✓ B-BBEE skills development
- ✓ Value added training
